ABOUT M. I. E. T.

M.I.E.T. located in the National Capital Region is one of the best and oldest self financed institutes in Uttar Pradesh. This Institute today, is a leading Institute known for its academic excellence and placement. At M.I.E.T. special emphasis has been placed on developing highly conducive environment for building of a solid foundation of knowledge, personality development, confidence building, pursuit of excellence and self-discipline which helps to produce professionals well trained for the rigors of professional and social life. It lays claim to have finest faculties and best infrastructure to provide quality education.

OBJECTIVES:

Biotechnology and Microbiology are definitely the true backbone of society having enormous contribution in both active and passive manner. Aim of the winter school is to offer inventive and incomparable analytical technical process for industry as well as research. This training program will construct and strengthen skills of graduates in the specific tasks to be completed for efficient functioning in the field of life sciences. The training programme will definitely ample and profound practical handling of students for industrial or research purpose. The proposed Winter School aims to provide hands-on training on frontier areas of Industrial Biotechnology, Agriculture Microbiology, Immunology, Molecular Biology, Mycoremediation, Plant Tissue Culture with special emphasis on Bioentrepreneurship.

ABOUT THE DEPARTMENT

The Department of Biotechnology & Microbiology was established in the year 2003 and within these years of its existence, it has progressed tremendously. The department has highly qualified and experienced faculty supported by equally qualified technical staff. With its well-educated and experienced faculty, the department is imparting quality education research skills in the students. The distinguishing feature of the department includes career-oriented research/training programs, conferences, workshops and seminars on current research areas along with the regular curriculum.

ELIGIBILITY:

Final Year students of B.Sc Biotechnology / Microbiology / Agriculture / Life Science / or any other allied area related to life science.
